

Raheela-Mughal: Unyielding Spirit (An Autobiography)

Amjad Siddiqi is such a human being who has taught people what it truly means to live. I often say that some people spend their lives, while for others, life itself spends its time. Amjad Siddiqi sahib didn't just pass through life; rather, he lived it to the fullest despite his disability. No matter how much pride is taken in this fact, it is less. When he arrived at our office for the very first time for an interview, it was explicitly evident from his face that an exceptionally grand human being had arrived. When Miss Ghulam Zara conducted his interview, we all learned about the ups and downs of his life. We experienced a boundless curiosity, wondering if such a thing could truly happen—does such an individual actually exist? Seeing him with our own eyes and listening with our own ears created a state of complete disbelief. After that, when he wrote a book about himself, my heart strongly desired once again to know even more details about him. Therefore, I ordered his book "Unyielding Spirit". Reading every single page caused a mixed feeling of pure wonder and intense joy to surface. There is absolutely no doubt that this is the autobiography of such a human being who motivates you that if he, despite his disability, can cross milestones of successes, then why can't you all? This is such a question that if we fail to give an answer to it, then we must accept that there are some flaws within our own selves which we need to complete, and then we must move toward the path of success. "Unyielding Spirit" is an autobiography that can teach you how to live. My prayer is that Amjad Siddiqi sahib always remains energetic and self-confident. (ameen)
