

## Rana-Azeem: Amjad Siddiqi: A Personality and a Way of Thinking

In my view, Amjad Siddiqi is not the name of a mere individual, but it is the name of a mindset. I am deeply awed by such a personality who, through his strength, established an example of lofty courage and resolve. He didn't just earn a name and position for his own self, but rather, he illuminated the name of his nation and country as well, making their heads hold high with pride. He established such an example that if a human being stands firm on resolve and makes a firm intention, then the world falls down at his feet. A person's disability no longer remains a helplessness, and despite his complete physical limitations, he can leave all healthy individuals far behind. He desired and fully achieved a status where people's eyes do not hold pity for him, but rather envy. For this reason, seeing him today, we feel immense pride that he is one among us. We offer our tribute of highest praise to him for his day-and-night relentless hard work, dedication, and success, and we can say this regarding him with ultimate perfection:

"Those whose resolves are firm, and whose gaze is upon God, They do not fear or falter because of the turbulent waves"

Rana Azim, Senior Journalist
